Ohio State Engineer

Title: Cranks and Countershafts

Issue Date: 1945-06

Publisher: Ohio State University, College of Engineering

Citation: Ohio State Engineer, vol. 28, no. 7 (June, 1945), 22.

URI: <http://hdl.handle.net/1811/36185>

Cranks and Countershafts

"Watch out! Here come a traffic cop."
"Quick hang out the Notre Dame Pennant."

—Triangle

* * *

A college graduate is a person who had a chance to get an education.

* * *

"May I have this dance?"
"Sure, if you can find a partner."

* * *

Did you hear about the musician's daughter who just plays around?

* * *

Professor: "Have I told you this joke before?"
Student: "Yes."

Prof: "Good, then maybe you'll understand it this time."

* * *

A consulting engineer is a man who knows less about your business than you do and gets paid more for telling you how to run it than you could possibly make out of it if you ran it the right way instead of the way he told you.

—The Purdue Engineer

* * *

Fine Arts Major: "There are some fifty odd professors in this school."

Engineer: "So I've noticed."

* * *

Some girls are not afraid of mice—others have pretty legs.

* * *

Mother: "Jane, where have you been until 3 a. m.?"

Jane "Walking, Mother."

Mother: "Oh, for goodness sake!"

Jane: "Yes."

* * *

Did you hear about the Commerce student who was so dumb that he thought a goblet was a sailor's child.

* * *

Engineer: "Sure golf is easy. All you do is smack the pill and then walk."

Tri-Delt: "Oh, just like some auto rides I've been on."

* * *

"Nothing is impossible."

"Have you ever tried to squeeze shaving cream back into the tube."

Engineer: We had a rough time at Ben's last night. We had a beer drinking contest.

Second ditto: You did? Who won the second prize?

* * *

A married couple were sleeping peacefully when the wife suddenly shouted out in her sleep, "Good Lord! My Husband!" The husband, waking suddenly, jumped out the window.

—Sooner Shamrock

* * *

A professor is a man who is employed to study sleeping conditions among students.

* * *

"Who was the lady I saw you out with last night?"

"I wasn't out, I was just dozing."

* * *

Coed (to room-mate): Were you out with an engineer tonight?

Room-mate: No. I tore my dress on a nail.

* * *

Prize advertisement:

Lotht: one front tooth, belonging to Thuthie Thmith, 2 $\frac{3}{4}$ Indianola; finder pleath return immediately becauth it ith impairing her speeth."

—Thanks to Cornell Engineer

* * *

How about this . . .

He: Let's get married or something.

She: We'll get married or nothing.

* * *

Things were so bad during the housing shortage in Dayton, Ohio, that a man went into a telephone booth so he would have a place to call home.

* * *

A well built girl is like a three ring circus. A fellow doesn't know where to look first.

* * *

The proof of this column is in the wastebasket.

* * *

"Hell, yes", said the devil picking up the phone.

* * *

Math Professor: Now watch the blackboard while I run through it again.

Radiophoto – news pictures out of the air!

RCA radiophoto transmits pictures halfway around the world and prints them—in a matter of minutes!

And thanks to RCA research, pictures now come through the receiver (shown above) just about as sharp and clear as the originals themselves.

Through RCA radiophoto, today's "news shot" in Honolulu or Cairo can make tomorrow morning's front page. Or—blueprints for a disabled power generator can be flashed to London—saving hundreds of vital war production hours.

Advertisements, fingerprints, documents and letters are radiophotoed by RCA Communications—as many as 2000 a month! Even musical scores—such as the new "Trio"

by the great composer Shostakovich—are sent by faster, error-proof radiophoto.

RCA has long been a pioneer in all fields of international communications. Progress is constantly maintained by scientific research... research that is reflected in all RCA products.

When you buy an RCA radio, or television set, or Victrola—made exclusively by RCA Victor—you enjoy a special pride of ownership in knowing that you possess one of the finest instruments of its kind that science has yet achieved.

1945—London to New York—7 minutes

1926—New York to London—1 hr. 35 mins.

Notice the great improvement in clarity, as well as in speed—both results of RCA research. Radiophoto prints are no longer blurred by a "pattern." Today, they're about as clear and sharp as the original photograph snapped thousands of miles away.
